The G.B. expressed its satisfaction that the feedback returned positive results on campus experience. The G. B. also acknowledges the need to work on certain issues to better the academic environment of the college. The core areas that have been earmarked for improvement are library, classrooms, laboratories and so on.

Upon motion duly placed and analyzed following actions have been found required and therefore suggested:

- Need to increase the number of classrooms.
- Need to increase the number of relevant books.
- Office staffs need to be more cooperative.
- Improvements of College Hostel.
- Better lab facilities.
- More Provisions for Drinking Water.

The G.B. expressed its satisfaction that most of the students have only positive things to say about their campus experience. However there is a room for improvement in areas, such as hostel facility, library facility, computer facility, classrooms and so on. These areas must be looked into to create a much improved teaching-learning experience.

Based on the analysis of both subjective and objective inputs, provided by the students in their feedback forms, following problem areas have been shortlisted:

- Need to increase the number of classrooms.
- Need to increase number of computers.
- Need to increase the number of relevant books.
- Need to improve the library accessibility through automation.
- Office staffs need to be more cooperative.
- Office needs to be brought under e-governance for smooth functioning.
- More Provisions for Cool Drinking Water.
